

Samsung Galaxy Tab 4 10.1 Rear Camera Replacement

This guide demonstrates how to replace the rear camera of the Samsung Galaxy Tab 4 10.1.

Written By: Parth Parikh

INTRODUCTION

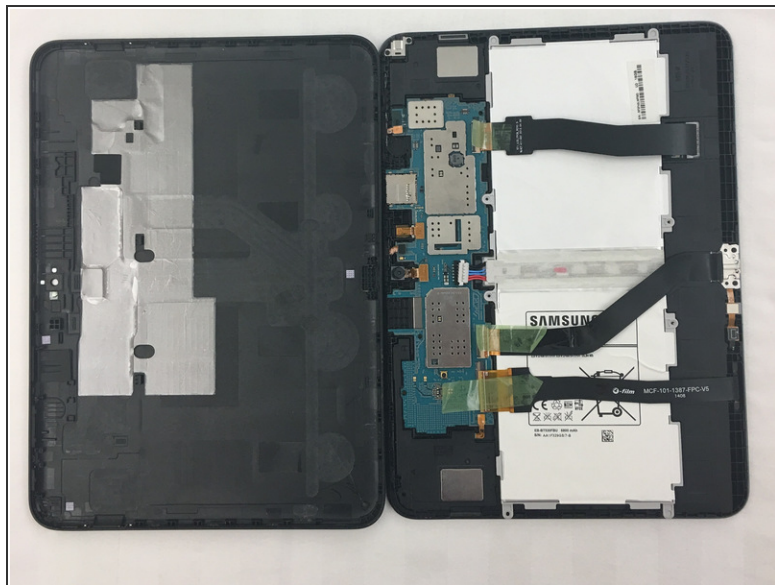

Before beginning, please buy the replacement rear camera for the Samsung Galaxy Tab 4 10.1.

TOOLS:

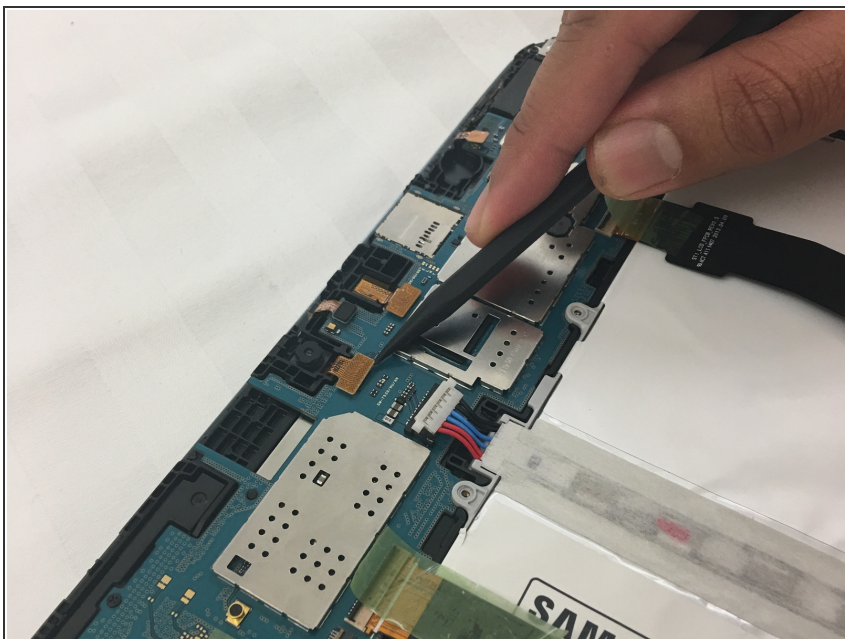

- [Spudger](#) (1)
-

Step 1 — Rear Camera

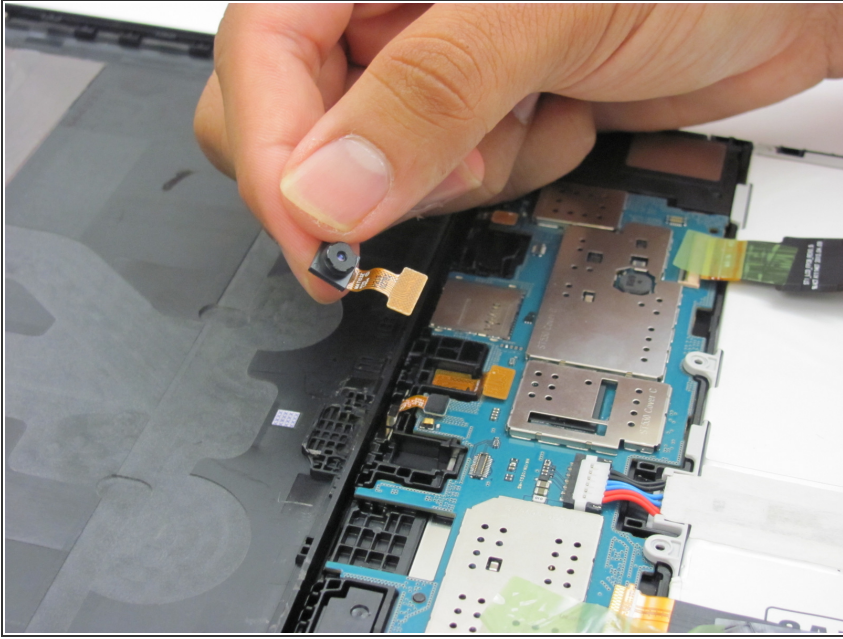

- Insert the wedge of the nylon spudger and slide it between the front and back panels until the back comes off.

Step 2

- Use the nylon spudger to lift the camera out of the motherboard by wedging it under both sides and gently prying up.

Step 3

- Once the camera is loose, lift it out of the device.
- ★ Use a little glue to help the new camera stick in place.

To reassemble your device, follow these instructions in reverse order.
